

	Female	Male	N/A Gender	Biscoe Island	Dream Island	Torgerson Island	Adelie (Species)	Chinstrap (Species)	Gentoo (Species)
# of Penguins	165	168	11	52	124	168	152	68	124

The most common species of penguin was the Adelie, and the most populated island was Torgerson.

	Min.	1st	Median	Mean	3 rd Qu.	Max.	NA's
Body Mass (g)	2700	3550	4050	4202	4750	6300	2
Bill Length (mm)	32.10	39.23	44.45	43.92	48.50	59.60	2
Bill Depth (mm)	13.10	15.60	17.30	17.15	18.70	21.50	2
Flipper Length (mm)	172	190	197	200	213	231	2

1. Gentoo penguins, on average, seem to be the heaviest between the three species. They also tend to have a much longer flipper length than the Adelie and Chinstrap.

2. What research questions can we ask the dataset?

Why are Gentoo flippers significantly longer than the other two species?

What are some significant differences between the Adelie and Chinstrap species?

What is the average size of penguin per island?
